BOARD OF PHARMACY

Notices of Rulemaking Docket Opening

As part of this rulemaking, the Board may add, delete, or modify additional Sections as necessary.

2. Subject matter of the proposed rule:

During the March 16, 2005 Board meeting, the Board determined that several changes to R4-23-411 (Pharmacist-administered Immunizations) should be made as requested by Arizona Pharmacy Alliance and interested pharmacists. The changes including the following: change pneumonia to pneumococcal, tetanus toxoid to tetanus booster, and add language to allow the administration of diphenhydramine during emergency situations. The changes in the vaccines is necessary because tetanus booster is used instead of tetanus toxoid and the proper term is pneumococcal instead of pneumonia. The addition of diphenhydramine is necessary because it is used more often than the epinephrine that is already in the rule. The training program already includes the proper use of both diphenhydramine and epinephrine. The Board feels this is a necessary clarification to ensure a clear, concise, and understandable rule for pharmacist-administered immunizations. The rule will include format, style, and grammar necessary to comply with the current rules of the Secretary of State and Governor's Regulatory Review Council.
