- 6. An explanation of the rule, including the agency's reasons for initiating the rule, including the statutory citation to the exemption from regular rulemaking procedures:**
The AHCCCS Administration is initiating this proposed exempt rulemaking to reinstate coverage for certain transplant services that were covered prior to an amendment to Arizona Revised Statutes § 36-2907(B)(2)(f) that excluded certain transplant services. Arizona Laws 2010, 7th Special Session, Ch. 10 ("the 2010 Act"). Specifically, the Administration is proposing to amend R9-22-206, Organ and Tissue Transplant Services, to explicitly include coverage for lung transplants, allogeneic unrelated Hematopoietic Cell transplants, heart transplants for the treatment of non-ischemic cardiomyopathy, transplants of a pancreas following a kidney transplant, and liver transplants for persons with hepatitis C. With this rulemaking, AHCCCS will continue to exclude coverage of pancreas transplants other than when performed simultaneously with or following a kidney transplant. This exclusion from coverage includes, and will continue to

include, the exclusion of islet cell transplants and partial pancreas transplants. The 50th Arizona State Legislature, 1st Regular Session, Laws 2011, Ch. 31 § 38(B) (Senate Bill 1619) as signed into law by the Governor on April 6, 2011 ("the 2011 Act") calls for coverage of services eliminated by the 2010 Act. While the 2010 Act states that pancreas only transplants and pancreas after kidney transplants are excluded, partial pancreas and islet cell transplants have been excluded prior to the 2010 Act as a matter of long-standing agency policy. The AHCCCS Administration has the authority under Arizona Revised Statute § 36-2907(D) to limit the scope of services by rule. The AHCCCS Administration relies on this authority rather than the 2010 Act to continue to exclude partial pancreas and islet cell transplants.

7. **A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**
None
8. **A showing of good cause why the rule is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:**
Not applicable
9. **The summary of the economic, small business, and consumer impact:**
The AHCCCS Administration had previously estimated that the transplant services that were excluded by the 2010 Act would affect one to 10 eligible persons per year at an approximate cost of \$100,000.00 per transplant. Reinstatement of the transplant services is estimated to have a corresponding effect.
10. **A description of the changes between the proposed rules, including supplemental notices, and final rules (if applicable):**
Not applicable
11. **A summary of the comments made regarding the rule and the agency response to them:**
None have been received yet.
12. **Any other matters prescribed by statute that are applicable to the specific agency or to any specific rule or class of rules:**
Not applicable
13. **Incorporations by reference and their location in the rules:**
None
