

NOTICES OF PUBLIC INFORMATION

Notices of Public Information contain corrections that agencies wish to make to their notices of rulemaking; miscellaneous rulemaking information that does not fit into any other category of notice; and other types of information required by statute to be published in the Register.

Because of the variety of Notices of Public Information, the Office of the Secretary of State has not established a specific publishing format for these notices. We do however require agencies to use a numbered list of questions and answers and follow our filing requirements by presenting receipts with electronic and paper copies.

NOTICE OF PUBLIC INFORMATION
DEPARTMENT OF ENVIRONMENTAL QUALITY

[M15-75]

- 1. Name of the Agency: Arizona Department of Environmental Quality
Title and its heading: 18, Environmental Quality
Chapter and its heading: 6, Department of Environmental Quality - Pesticides and Water Pollution Control
Article and its heading: 3, Groundwater Protection List
Section and its heading: R18-6-301, Groundwater Protection List

2. The public information relating to the listed statute: Pursuant to A.R.S. § 49-305, the Arizona Department of Environmental Quality (Department) maintains a Groundwater Protection List (GWPL) composed of agricultural use pesticides and active ingredients that have the potential to pollute groundwater.

3. Draft 2015 Groundwater Protection List The GWPL is a list of agricultural use pesticide active ingredients that have the potential to pollute groundwater. An agricultural use pesticide active ingredient is placed on the GWPL for any of the following reasons: 1) it fails to comply with the established specific numeric values, 2) the environmental fate assessment indicates potential to leach to groundwater, or 3) an active ingredient or degradation product has been detected in groundwater consistent with established testing requirements.

Pursuant to A.A.C. R18-6-301, the Department is publishing the draft 2015 GWPL to provide an opportunity for the public to comment on the active ingredients being placed on or removed from the GWPL. The final 2014 GWPL contained 87 active ingredients; the draft 2015 GWPL would add five new active ingredients: Cyantraniliprole, Fenpyrazamine, Fluensulfone, Flutriafol and Pyroxasulfone. With this publication, a 30-day public review and written comment period begins. After completion of the 30-day review and comment period, the Department will formulate a response to any comments submitted and consider making modifications to the GWPL in response to the comments. If no comments are received, the draft GWPL becomes final. If comments are received, the revised GWPL will then be re-published in the Arizona Administrative Register, including a summary of comments received and the Department's response to the comments. The final 2015 GWPL will become effective on December 1, 2015, in accordance with R18-6-301(A)(3) and will be posted on the agency's website at: http://www.azdeq.gov/environ/water/permits/pesticide.html
