**NOTICES OF PROPOSED RULEMAKING**

---

This section of the *Arizona Administrative Register* contains Notices of Proposed Rulemakings.

A proposed rulemaking is filed by an agency upon completion and submittal of a Notice of Rulemaking Docket Opening. Often these two documents are filed at the same time and published in the same *Register* issue.

When an agency files a Notice of Proposed Rulemaking under the Administrative Procedure Act (APA), the notice is published in the *Register* within three weeks of filing. See the publication schedule in the back of each issue of the *Register* for more information.

Under the APA, an agency must allow at least 30 days to elapse after the publication of the Notice of Proposed Rulemaking in the *Register* before beginning any proceedings for making, amending, or repealing any rule. (A.R.S. §§ 41-1013 and 41-1022)

The Office of the Secretary of State is the filing office and publisher of these rules. Questions about the interpretation of the proposed rules should be addressed to the agency that promulgated the rules. Refer to item #4 below to contact the person charged with the rulemaking and item #10 for the close of record and information related to public hearings and oral comments.

Notice of Rulemaking Docket Opening: 21 A.A.R. 3085, December 4, 2015

Address: Board of Respiratory Care Examiners

E-mail: john@rb.az.gov  
Website: www.respiratorycare.az.gov
- 5. An agency's justification and reason why a rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:**  
The Board is amending and repealing some of its rules in Articles 1 and 2 to make them conform to current changes in Board policy. The Board has determined that the Registered Respiratory Therapist (RRT) credential will be required for licensure as a respiratory therapist in Arizona instead of the Certified Respiratory Therapist (CRT) credential. The Commission on Accreditation for Respiratory Care has adopted new accreditation standards for respi-

ratory care therapists that set the standard of minimum level of competency by examination pursuant to A.R.S. § 32-3504(D). The RRT examination is a higher level of competency than the CRT examination and contains clinical questions. The CRT examination does not contain clinical questions. The rules will allow respiratory therapists with a CRT credential who apply for a license before January 1, 2017 to be “grandfathered”, which allows the respiratory therapist to continue to practice or obtain a license without earning the RRT credential.

R4-45-213 for temporary licenses is being repealed because its statutory authority has been repealed and the Board no longer issues them. References to temporary licenses in the rules have been repealed throughout the rules.

The Board sent a copy of the rules to the Arizona Society of Respiratory Care and the American Association of Respiratory Care and posted the rules on the Board’s website to solicit comments on the rules and the rules’ economic impact. The Board did not receive any comments from these solicitations.

The Board is submitting this rulemaking to the Secretary of state’s office in accordance with the exemption authorization under item (2)(b) of Executive Order 2015-01, State Regulatory Rulemaking Moratorium. The rulemaking exemption was approved by the Governor’s office on February 13, 2015 and May 22, 2015.

**6. A reference to any study relevant to the rules that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rules, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

The Board did not review or rely on any study.

**7. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

None

**8. The preliminary summary of the economic, small business, and consumer impact:**

Annual cost/revenue changes are designated as minimal when less than \$1,000, moderate when between \$1,000 and \$5,000, and substantial when greater than \$5,000.

The changes to the rules may affect the Board, an applicant, a licensee, schools that provide a respiratory care program, health care institutions, and consumers.

The Board has determined that the RRT credential will be required for licensure as a respiratory care therapist in Arizona. Thus, the Board is changing the credential it requires of a respiratory care therapist from the CRT to the RRT. The Registry Examination system was developed to objectively measure knowledge, skills, and abilities required of advanced respiratory therapists and to set uniform standards for measuring such knowledge. Many health care institutions expect services at the RRT level, but there are no costs to them. The Board is eliminating all references to temporary licenses throughout the rules. One of these rules is R4-45-102 for Fees. The Board is not increasing or decreasing any of its fees, but is removing the reference to temporary license. The Board is not increasing costs for an application or application renewal, so all fees for applicants remain the same. Costs should not increase to schools because schools have already updated their curriculum in the accreditation process. Respiratory therapists who apply for license before January 1, 2017 may be “grandfathered” into licensing, which allows the respiratory therapist to continue to practice without earning the RRT credential. The Board should experience moderate costs for writing the rules and economic impact statement.

The Board currently licenses about 4,100 individuals. Costs should not increase to a licensee due to amendment or repeal of the rules.

Consumers benefit from rules that require respiratory therapists to qualify at a higher level. Consumers should not experience increased costs. The Board, applicants, licensees, and consumers should benefit from rules that are clearly and consistently written.

**9. The agency’s contact person who can answer questions about the economic, small business, and consumer impact statement:**

Name: Jack Confer, Executive Director  
Address: Board of Respiratory Care Examiners

**10. The time, place, and nature of the proceedings to make, amend, repeal, or renumber the rules, or if no proceeding is scheduled, where, when, and how persons may request an oral proceeding on the proposed rules:**

The Board will hold an oral proceeding regarding the proposed rules as follows:

Date: April 11, 2016

Time 10:00 a.m.  
 Location: 1400 W. Washington, Suite 200

**11. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

**a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

No, the Board is issuing an individual license to each person who qualifies for licensure as proof of being licensed. Because the qualifications of each applicant are different, the Board must act on each license separately.

**b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

Federal law is not applicable to the subject of the rules.

**c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

The Board did not receive such an analysis from any person.

**12. A list of any incorporation by reference material as specified in A.R.S. § 41-1028 and its location in the rules:**

None
